**BAL HARBOUR**  
- VILLAGE -

The Village is very excited about the new design of our Bal Harbour Jetty. The Village Council has selected Mikyoung Kim Design Studio, an internationally acclaimed, award winning landscape architectural firm as the best qualified after the review and careful consideration of various submittals by qualified firms. Mikyoung has worked in Boston, Miami, New York, Seoul and other major cities in developing innovative ways of integrating art and landscape ecologies to create memorable family-centered destinations. The firm has received over 50 design awards for their work including the American Society of Landscape Architects (ASLA), National Design Medal and numerous ASLA National Honor awards.

The project initiation commences with the Community Design Workshop in July 2019 and after an extensive permitting review period by the environmental agencies, the Village will award a construction contract with an anticipated completion date of December 2022. Please attend our workshop to receive additional information and to provide feedback as to what is most important to you and your family in the design of the Jetty.
